SUMMARY

Highly motivated Full-Stack Developer with expertise in Laravel, PHP, ASP.NET, React, and React Native, adept at building scalable business applications. Proven ability to develop and optimize RESTful APIs and secure authentication, delivering robust solutions for training, library, and employee management systems. Committed to clean code, performance, and enterprise software development, currently advancing skills in ASP.NET Core.

PROFESSIONAL EXPERIENCE

Senior Full Stack Developer
ITVisionHub Company Limited
- Engineered scalable web applications using PHP, Laravel, React, React Native ASP.NET, with a focus on performance, maintainability, and clean architecture
- Implemented secure authentication and authorization mechanisms using Firebase, JWT, and role-based access control (RBAC)
- Optimized MySQL queries, indexes, and database schema design, improving application response times and reducing system load during peak usage.
- Built responsive and user-friendly interfaces using modern frontend technologies
- Streamlined deployment workflows by implementing CI/CD pipelines using Git and GitHub
- Conducted code reviews and collaborated with junior developers to improve code quality, maintainability, and development efficiency.

Junior Developer 05/2024 - 06/2025
ITVisionHub Company Limited Yangon
- Developed and maintained responsive web applications utilizing modern frontend and backend technologies for diverse client projects.
- Collaborated effectively with cross-functional teams to deliver high-quality software solutions on schedule.
- Optimized application performance and user experience, resulting in enhanced client satisfaction.
- Contributed to all phases of the software development lifecycle, from concept to deployment.

Full Stack Developer 06/2025 - 05/2026
ITVisionHub Company Limited Yangon
- Developed and deployed full-stack web applications utilizing PHP, Laravel, React.js, and RESTful APIs to support critical business operations.
- Engineered robust and scalable solutions, enhancing system performance and user experience.
- Collaborated with cross-functional teams to define project requirements and deliver high-quality software on schedule.

Senior Full Stack Developer 05/2026 - Present
ITVisionHub Company Limited Yangon
- Led the development and maintenance of scalable full-stack web applications, contributing to the delivery of robust software solutions.
- Utilized expertise in full-stack development to ensure high performance and responsiveness of web applications.
- Collaborated with cross-functional teams to define, design, and ship new features, enhancing user experience and product functionality.

EDUCATION

Bachelor of Computer Science (B.C.Sc) - CGPA: 9 12/2018 - 09/2025
UCSMTLA Meiktila

PROJECTS

Training Management System (TMS)
- Developed a centralized training management platform for course scheduling, enrollment, attendance, assessments, and reporting.
- Designed the system using N-Tier Architecture and MVC principles, developed RESTful APIs and Laravel backend modules, optimized MySQL queries for reporting performance, built administrative dashboards and analytics, and implemented Docker-based deployment workflows.
- Tech Stack: HTML5, CSS3, JavaScript, Bootstrap, Tailwind CSS, PHP, Laravel, MySQL, Docker, GitHub.

Library Management System
- Developed a digital library platform to automate catalog management, member registration, book lending, and inventory tracking.
- Designed a scalable MySQL database, implemented advanced search and filtering, optimized queries for high-volume operations, and built responsive administrative interfaces for librarians and staff.
- Tech Stack: HTML5, CSS3, JavaScript, Bootstrap, Tailwind CSS, PHP, MySQL, Docker, GitHub.

Employee Management System
- Developed an HR management platform for employee records, leave management, and role-based access control.
- Built secure backend modules using ASP.NET MVC and Entity Framework, implemented RBAC authorization, and designed dashboards for employee tracking and HR reporting.
- Tech Stack: HTML5, CSS3, JavaScript, Bootstrap, ASP.NET, MySQL, Docker, GitHub.

Food Delivery App
- Developed a React Native food delivery application supporting restaurant browsing, menu exploration, cart management, ordering, and order tracking.
- Built reusable mobile components, integrated RESTful APIs, and implemented intuitive navigation and ordering workflows.
- Tech Stack: React Native, JavaScript, RESTful APIs, Appwrite, GitHub.

Real Estate App
- Developed a mobile real estate application for property browsing, search, filtering, and detailed property viewing.
- Built responsive listing and detail screens, integrated RESTful APIs and Maps API, and created reusable components with user-friendly mobile navigation.
- Tech Stack: React Native, JavaScript, Maps API, Appwrite, GitHub.

Movie App
- Developed a React Native movie discovery application featuring movie search, category browsing, and detailed movie information.
- Integrated the TMDB API, built reusable Ul components, implemented navigation, and designed responsive mobile interfaces.
- Tech Stack: React Native, JavaScript, TMDB API, GitHub.
